Foil Glossy & Matt

Our plotter films have been designed for almost unlimited use indoors and outdoors. Universal processing properties, as well as a large selection of brilliant colours in glossy or matte make them interesting for a wide range of applications – such as vehicle, shop window or sign labels. The film has excellent resistance to UV light, chemicals and moisture and is coated with a permanently adhesive.

Foil Frosted Glass

The semitransparent foil is an optimal visual protection, or glass decoration for indoor and outdoor use. The semitransparent tape protects against prying eyes and is nonetheless permeable to daylight.
