# BLANK SIGNS

## Nose & Flag Signs

A great advantage of the nose and flag signs is that they can be recognized quickly and clearly. Due to their shape, they protrude freely into the room and are therefore quickly recognizable from many sides as well as from a distance.

The flag signs are suitable for wall and ceiling mounting. The nose shields are clearly visible from all sides and are suitable for wall mounting.

### Advantages at a glance:

- Light but at the same time extremely stable plastic with a thickness of 1.5 mm
- To be attached to the wall or ceiling
- With standard drill holes
- Delivered blank (unprinted)
